Location and Facilities

Located in the historic urban setting of Cambridge, accessible by subway and close to many city resources, each school houses the academic offices of its deans, program chairs and faculty. Each building contains technologically equipped classrooms, study environments, and computer labs. Additionally, there are lounges and vending machines for student convenience, but no cafeterias. There are good public eating places nearby. Our students are typically commuters, not in need of housing except when enrolled in our summer residential programs (Summer Institutes).
