

Cambridge College Fall 2021 Zoom/Remote Offerings

Fall Semester (Sept. 7 – Dec. 17) COURSES

CMP 130 CA01—Introduction to Computer Applications

3 credits | Prerequisite: None | Meets: Tuesday from 6-8:30pm

This course provides a hands-on introduction to the personal computer, Windows, word processing, spreadsheet, presentation software, the Internet, and an overview of Word, Excel and Power-Point uses. Students begin with the basics of each application and progress through intermediate level.

Textbook Information:

There is no textbook required for this course.

CTH 225 CA01—Foundations of Critical Thinking

3 credits | Prerequisite: None | Meets: Thursday from 3:25-5:55pm

We learn to engage in reasoned thinking. We learn to formulate hypotheses; conceive and state definitions, and understand logical consistency and inconsistency. We explore the differences between claims of fact, value, and policy; what constitutes credible evidence; the nature of assumptions. We learn what constitutes a persuasive argument as opposed to an emotive and propagandistic one, and critically examine them. Students learn to present clear, well thought out critical arguments in writing and oral presentations. We look at the relationships among thinking, writing, speaking and listening, laying a strong foundation for improving our capacity to write, speak, and listen well.

Textbook Information:

The textbook for this course is Critical Thinking (ISBN-10: 1473947146 | ISBN-13: 978-1473947146) estimated cost \$26.00(new); \$19.00 (used).

MAT 101 LA01—College Math I

3 credits | Prerequisite: None | Meets: Tuesdays & Thursdays from 6-8:30pm

(Note: this class runs on an abbreviated 8 week semester and ends 11/1)

This course introduces students to the value of mathematics for students' career and educational goals. Students will acquire mathematical study skills, gain strategies for problem solving, and develop a sound foundation for future mathematics coursework. The course is structured towards engaging students in active, applied, and real-life learning in order to facilitate mathematical problem solving and conceptual understanding.

Textbook Information:

No textbook information is listed for this course.

WRT 101 LA01—College Writing I

3 credits | Prerequisite: None | Meets: Mondays & Wednesdays from 6-8:30pm

(Note: this class runs on an abbreviated 8 week semester and ends 11/1)

Through challenging readings, class discussion, small group col-laboration, and different forms of writing, students learn the skills and process of "thinking on paper." They learn to construct an argument or discussion that supports a clear thesis and present it effectively in a well-organized essay that observes the conventions of written English. They write academic papers that analyze and synthesize the issues suggested in two or more readings. Critical reading, critical thinking, research skills, and forms of documentation are also introduced.
